

I believe that strict limits should be placed on media ownership. The current merging of many media outlets and types under the influence of a few powerful corporations has caused a serious decline in the quality and objectivity of the information being presented to the public. Fewer alternate viewpoints are being heard. As an example, even though polls indicated 65% of the public was opposed to the war in Iraq, 85% of the viewpoints expressed in the media were in favor of the war.
